Job Description

We are a rapidly growing innovative Psychology Practice in Midtown Toronto looking for a Psychologist or an experienced therapist in Supervised Practice to join our team of mental health professionals. We are searching for a clinician who is interested in building towards a case load of 20-30 patient hours a week.

Our practice provides treatment for adults, couples, and individuals. We draw on multiple treatment modalities and techniques informed by the patient's presentation and specific needs.

We are also looking to broaden the practice to adolescents and children as well as expand our great team of therapists who treat adults.

We support our therapists in building a practice aligned with their personal interests and expertise that would also be a valuable addition to our current group of clinicians.

Qualifications:

A practitioner trained in a variety of treatment modalities which may include psychodynamic therapies, relational models, mindfulness, CBT, DBT and EFT.

Preference will be given to individuals with 5 or more years of experience treating depression, anxiety, phobias, childhood trauma, OCD, relationship issues, harassment, addictions and eating disorders.

Experienced and/or interested in conducting psycho-legal assessments would also be an asset as we often work with employment and criminal lawyers to support their clients.

Must be registered and in good standing with the College of Psychologists of Ontario or eligible for Supervised Practice.
