

**Full Time, Clinical Psychologist  
Canadian Forces Health Services Centre  
Ottawa, Ontario**

**About the role:**

Calian is proud to continue a long-standing contractual relationship with the Department of National Defence (DND) to provide healthcare services to the Canadian Armed Forces. Through the Health Care Provider Contract, Calian employs health care professionals across Canada who are integral to supporting the health and wellbeing of our military members.

The mental health team at Canadian Forces Health Services Centre located within the Montfort Hospital in Ottawa, Ontario is seeking a Clinical Psychologist to join the team. In this role the Clinical Psychologist provides psychological assessment services and treatment services to serving members of the Canadian Armed Forces dealing with stress arising from military operations.

*Are looking for a rewarding position where you can make a difference?*

Join this mental health team and work alongside a mental health team consisting of Psychiatrists, Clinical Psychologists, Mental Health Nurses, Addictions Counsellors, and Clinical Social Workers.

**Benefit from:**

- Collaborative Shared-Care Model
- Motivated Clients
- Time for Administrative Duties
- No Overhead or Administrative Costs

**Your Key Duties Include:**

- Conducting psycho-diagnostic assessments with an adult population including differential diagnosis
- Providing professional services related to the diagnosis, assessment, evaluation, treatment and prevent of psychological, emotional psycho-physiological, and behaviour disorders with an adult population
- Administering appropriate diagnostic tests for psychometric assessment, interpreting the results, and preparing psychological evaluations
- Reporting results and interpretations of tests, interviews, and evaluations to the multi-disciplinary team
- Providing treatment of a variety of mental health conditions for Canadian Armed Forces members using evidence-based practice including the use of Cognitive Behavioural Therapy and trauma processing therapies along with other modalities of therapy
- Participating as a member of the multi-disciplinary mental health team in case reviews
- Leading and participating in the development, instruction, and counselling during sessions for specific mental illness such as anxiety, PTSD, depression and stress management
- Assisting in the identification, development, and evolution of mental health programming
- Creating and maintaining patient records in a timely manner

**The Qualifications:**

1. Degree in Clinical Psychology from an accredited university
2. Registered as a Psychologist and authorized for autonomous practice with the appropriate provincial licensing body
3. 2 years of post-graduate experience, under a license for autonomous, within the last 5 years completing psycho-diagnostic assessments, including differential diagnosis, and providing treatment services to adults with PTSD, anxiety, mood disorders, and other various mental health illnesses
